Some thoughts on answers to some questions.

And, a tongue-in-cheek suggestion we get the minority staff to ask about the job-killing formaldehyde pressed-wood standards, since the reply will be that Congress mandated the rulemaking.

David

**Subject:** tough chemical Q&As

Hi Folks - We were asked to pull together some tough questions for various chemicals. We had some prepared already, which I've included here, but I also added a few. Please take a look and let me know if you can think of other tough questions -- especially those that deal with jobs or the economy (the theme of the hearing). If there is a Q, but no answer, and it is your chemical, please try to fill in a response. I'll need your edits by 11:00 a.m. tomorrow.

Thanks!

Kacee
